

TRANSFLO Now is a remote scanning application that offers the same timely delivery and accuracy as TRANSFLO Express®, while allowing fleets, drivers, agents and terminals to scan and deliver documents at anytime and anywhere. Documents can be scanned from within the truck cab, home, office, or any other location where the application has been easily downloaded and installed on an Internet and scanner enabled PC.

Drivers gain the convenience of scanning their documents at the location they prefer, with the assurance of a confirmation receipt and the reliable, no-doubt TRANSFLO Express® delivery service they have grown to trust. Fleets gain quick access to delivery documents and speed up their billing cycle and driver settlements versus terminal drops or overnight delivery services.

WHY TRANSFLO NOW?

- Free and easy to download and install by the user
- Fleet ID ensures accurate delivery
- Works with virtually any TWAIN scanner
- Easily index at a batch or document level
- Users receive delivery confirmation
- View documents online for 14 days
- Users have a document history review
- The standard per scan fee applies to the fleet
- Very easy to use - virtually no training and support
- Updates to TRANSFLO Now!™ are automatically applied
- Familiar and easy document delivery, just like from a truck stop
- Uses the proven TRANSFLO Express® electronic delivery network
